

ANALYZE NYSE DATA

SECTORS REVENUE

The Energy sector has seen a drastic decline from 2% in 2014 to 52% in 2015. It has the highest deviation of 269 billion and a range of 481 billion due to its market fall. Its meaned growth rate for 214 to 2015 is -27%.

The sectors that did well on the market are: Health Care at 10%, Real Estate at 9%, Consumer Discretionary at 7%, IT at 6% and Telecommunications at 5 %. For a person that doesn't have as much fund to invest, these sectors are a good starting point for diversifying their portfolio.

The Financials and Real Estate sectors has the lowest standard of deviations at 4.8 billion and 6.2 billion respectively, this suggests that their anual earnings are not that far from their average revenues and thus stable markets.

HEALTH CARE DISTRIBUTORS EARNINGS

Box Plot of Health Care Distributor Earnings from 2013 to 2015

From this box plot of earnings of Health Care Distributors from 2013 to 2015, we can quickly asses that there is at least 70 billion dollars of revenue that separates half of the companies that is listed in this sub-industry.

MCK McKesson posted the highest revenue of 179 billion in 2015 and is the highest in the plot. It has a meaned growth rate of 17% and has the highest deviation at 29 billion because of its market dominance.

AMC AmerisourceBergen and CAH Cardinal Health are the other two that are much separated from the box plot. Their lowest revenue are 87 billion and 91 billion respectively and does not even equal the summed three year revenues of BMJ Bristol, HSIC Henry Schein and WAT Waters Corp.

The highest range of revenue for the Health Care Distributors was in 2015 with 177 billion. That is how much McKesson's revenue of 179 billion when subtracted Water's Corporation's revenue of of 2 billion.
